Professional Summary

Pre-final year B.Tech student (Class of 2028) in Computer Science (AI & ML, CGPA: 8.98) at NMIT Bengaluru, with solid **object-oriented programming, data structures, and algorithms** and proficiency in **Python, C, and Core Java**. Top 1% contributor at GSSoC 2026 (191 merged PRs, 11 open-source projects) using Git/GitHub and code review. Methodical debugger who writes clean code to best practices; clear, collaborative communicator.

Education

Nitte Meenakshi Institute of Technology – B.E. AI & ML — Bengaluru, India
CGPA: 8.98/10.0 — Pre-Final Year, Class of 2028 — Aug 2024 – May 2028
R K Vision PU College – PCMB — Chintamani, India
Percentage: 95.8% — Jun 2022 – Apr 2024

Technical Skills

Core CS: OOP, Data Structures & Algorithms, Complexity Analysis, Operating Systems, System Design
Languages: Python, C, Core Java
Web & APIs: REST API design, React.js, Next.js, Node.js, Express.js, FastAPI, Tailwind CSS
Databases: PostgreSQL (relational databases), SQL, MongoDB, Firebase, Prisma ORM
Tools: Git, GitHub, CI/CD, Docker, AWS (Certified), Vercel
AI & Automation: LLMs, Generative AI, Prompt Engineering, Agentic AI

Experience

Software Engineering Intern – AI/ML — Nov 2024 – Jan 2025
Infosys Springboard — Remote

- Shipped a **3-model agentic AI pipeline** (Python, Flask) for clinical diagnostics in an Agile/Scrum team; participated in code reviews and design discussions.
- Built **optimised, multi-tiered REST APIs** and an OCR pipeline (∼95% accuracy), shipping to production with minimal defects.

Open Source Software Engineer – GSSoC 2026 — May 2026 – Aug 2026
GirlScript Summer of Code, AI/Agents Track — Remote

- Ranked **#132 globally (Top 1%)**; merged **191 pull requests** across 11 open-source projects with maintainer code review.
- Independently learned unfamiliar codebases to resolve ambiguous issues; earned **Elite** and **Power Contributor** badges.

Projects

All India Villages API | *Node.js, Express, PostgreSQL, Prisma, React* — [Live Demo]

- Shipped a **distributed REST API** serving 457,054 Indian villages across 36 states; API key auth, real-time autocomplete at **<100ms**, **99.9%** accuracy, 3NF schema with query optimisation.

AI Health Diagnostics System | *Python, Flask, PyPDF2, Pandas, Plotly*

- Full-stack AI platform: 3 ML models, OCR pipeline (∼95% accuracy), 5-tab monitoring dashboard – owned end-to-end.

Smart Waste Management System | *React, Firebase, Node.js*

- Real-time RBAC platform; cut operational reporting delay by ∼40% via distributed database optimisation.

Hackathons & Competitions

Merchant Agent OS | *x402 PreHack – Algorand Foundation & KrowdKraft* — **Round 3**

- Built a 5-service distributed system (Node.js, TypeScript, Hono, React) where autonomous AI agents discover, evaluate, and pay for services via the **x402 protocol (HTTP 402)** on Algorand – with budget management, a competing-provider marketplace, and human-in-the-loop spend approval.

CampusMind | *React, TS, Node.js, Databricks, Genie AI* — **Round 2 (Top 10%)**

- Full-stack campus assistant (12+ REST endpoints) with a Databricks Medallion architecture (Bronze/Silver/Gold) and Genie-powered NL Q&A grounded in Gold-layer data to eliminate hallucination; 100% TypeScript coverage, strong **test coverage** across 10+ passing tests.

CareerCompass AI | *Women Who Master Hackathon 2026 – Logitech & Aspire For Her* — **Round 2**
Responsible GenAI career navigator (AWS PartyRock) mapping transferable skills into a realistic, constraint-aware 90-day plan.
NEXATHON – Hyperlocal Marketplace | *Team Lead* – React/FastAPI/PostgreSQL marketplace with JWT auth & RBAC; led Agile sprints end-to-end.
Odoo × NMIT – EcoFinds | *Team Lead* – 24-hr sprint consumer marketplace. **SIH – AI Agriculture:** crop & irrigation planning system.

Achievements & Certifications

Competitive Programming: 100+ LeetCode problems (Arrays, Trees, Graphs, Dynamic Programming)
Certifications: AWS Cloud Foundations | Prompt Engineering | Deep Learning for Developers | Generative Models for Developers
